

## INDEX

- Abandoned fields, 134-135  
 Activity, 225  
 Asprey, G. F., article, 359-412  
 Auerbach, Stanley, article, 1-15
- Barnes, Robert D., article, 315-337  
 Beard, J. S., article, 149-215  
 Bormann, F. H., article, 339-358  
 Brown, Robert Z., article, 217-240
- Cantlon, John E., article, 241-270  
 Climate  
   Beaufort, N. C., 316  
   Jamaica, 362  
   savanna, N. tropical America, 196-197
- Climax  
   application, 57-58  
   as a population and pattern, 41-78  
   characteristics, 48-50  
   theory, 41-78
- Community classification  
   maritime plants, 316-328
- Dermoptera and Orthoptera of  
   Welaka area, Fla., 79-126  
   climate and geology, 84-86  
   habitats of, 94-121
- Ecological distribution of spiders  
   in non-forest maritime communities, 315-337
- Elliott, Jack C., article, 271-288
- Frey, David G., article, 289-313  
 Friauf, James J., article, 79-126
- Habitat assemblages of Orthoptera, 90-94  
 Home range, 223
- Jamaica  
   climate, 362  
   floristics, 363-365  
   geology and soils, 361  
   plant communities, 370-401  
   vegetation, 359-412
- Life form spectra, 261  
 Life-history, *Symphoricarpos occidentalis*, 23-37  
 Loblolly pine  
   drought endurance, 346-351  
   in old-field succession, 339-358  
   seedling survival, 346-351  
 Lowland communities, of Jamaica, 379-392
- Maritime communities  
   Beaufort, N. C., 316-319  
   Jamaica, 371-376  
 Microclimate  
   and contrasting slopes, 241-270  
   Cushetunk Mt., N. J., 241-270  
 Monoclimax, evidence and criticism, 51-53  
 Montane communities of Jamaica, 394-401
- Niering, William A., article, 127-148  
 Northern hardwoods, 140-141
- Old-field succession in the Piedmont of North Carolina, 339-358  
 Original land survey, Mich., 274
- Park, Orlando, article, 1-15  
 Pelton, John, article, 17-39  
 Photosynthesis, of sweetgum, 341-342  
 Pollen analysis  
   New Jersey, 141-142  
   North Carolina, 289-313  
 Pollen succession, S. E. North Carolina, 289-313  
 Populations  
   cyclic fluctuations, 46  
   of pselaphid beetles, 4-10  
   social aspects of, 227-236  
 Pselaphid beetle populations of  
   an Illinois prairie, 1-15
- Reproduction of Mus, 224, 231-234  
 Robbins, R. G., article, 359-412
- Savanna, Northern tropical America, 149-215  
 Second growth forest, Michigan, 271-288  
 Social behavior, reproduction and population changes in Mus, 217-239  
 Soils  
   effects on vegetation, 272-285  
   N. tropical America, 199-200  
   profiles, 153, 168, 171, 183  
   Welaka, Fla., 86, 89  
 Spiders, in non-forest maritime communities, 315-337  
 Succession  
   New Jersey, 130-141  
   of Orthoptera, 124  
   of spiders, 336  
   xerarch-hydrarch, 130-134  
 Succession and retrogression, 46-47  
*Symphoricarpos occidentalis*  
   distribution, 19-23  
   life-history, 23-37  
 Sweetgum  
   drought endurance, 346-351  
   germination, 344-345  
   in old-field succession, 339-358  
   photosynthesis, 340-342  
   seedling survival, 346-351
- Tropical savanna, 149-215
- Vegetation  
   Cushetunk Mt., N. J., 241-270  
   High Point State Park, N. J., 127-148  
   Jamaica, 359-412  
   Michigan tension zone, 271-288  
   savanna, tropical, 149-215  
   of north and south slopes, 241-270  
   post-glacial, 289-313  
   profiles, 171, 205, 207, 209
- Whittaker, R. H., article, 41-78  
 Wilson, Marie, article, 1-15
